

## NAVY MEDICINE IN FOCUS: MARCH 2017

Every day, more than 63,000 Navy Medicine personnel are operating forward around the world, providing agile, rapid health care support to the Navy and Marine Corps. Ensuring lives are saved wherever our forces operate is what we do, be it above the sea, on the sea, below the sea or on the battlefield. The following photos depict our medical professionals at work during March 2017.
